- Adrenal and sex glands, interrelations of, 652.
- function, blood K, histamine intoxication and, 102.
- medulla hypertrophy in thiouracil poisoning, 69.
- Adrenalectomy and high temperature, 108.
- Adrenals, thyroids and, in thiourea intoxication, 742.
- Afferent connections to acoustic cortex, 389.
- ALEXANDER, R. S. See PITTS and ALEXANDER, 239.
- ALLEN, W. F. Effect of destroying three localized cerebral cortical areas for sound on correct conditioned differential responses of the dog's foreleg, 415.
- ANCONA, G. R. See TROESCHER-ELAM, ANCONA and KERR, 711.
- Anemia, hemolytic, from feeding fat and choline, 444.
- Anoxia, acute anoxic, oxygen consumption of tissues after, 87.
- , brain metabolism in, and after hemorrhage, 683.
- , hepatic, and respiration of liver slices, 669.
- , visual thresholds as index of modification of, 378.
- Anoxic animals, metabolism of brain from, 334.
- Aortic pressure curve, cardiac ejection curve and, 546.
- Arterial pulse wave, propagation velocity of, 521.
- Arteries, streamline blood flow in, 706.
- ASHBURN, L. L. See HUNDLEY, ASHBURN and SERRELL, 404.
- B**VITAMINS, restricted intake of, in man, 5.
- Ballistocardiographic forces, cardiac ejection curve and, 557.
- BAUMANN, E. J. See MARINE and BAUMANN, 69, 742.
- BEATTY, C. H. The ability of the liver to change blood glucose and lactate concentrations following severe hemorrhage, 233.
- BERRYMAN, G. H. See HOWE and BERRYMAN, 588.
- BEYER, K. H. and S. H. SHAPIRO. The excretion of conjugated epinephrine related compounds, 321.
- Bile therapy, total biliary fistula without, 626.
- Biliary fistula, total, without bile therapy, 626.
- Biotin, synthetic, progressive paralysis cured with, 175.
- BLACK, W. A. and P. V. KARPOVICH. Effect of exercise upon the erythrocyte sedimentation rate, 224.
- BLANCHARD, E. W. See GERBER and BLANCHARD, 447.
- Bleeding volume in experimental shock, 595.
- Blood cells, white, life cycle of, 284.
- cellular elements, crystalline vitamin B. and, 348.
- clotting time, effect of certain substances on, 447.
- , erythrocyte sedimentation, exercise and, 224.
- flow, streamline, in arteries, 706.
- glucose, liver control of, after hemorrhage, 233.
- K, histamine intoxication and adrenal function, 102.
- , peripheral, effect on, of removal of thoracic duct lymph, 297.
- plasma and cells after hemorrhage and replacement, 199.

- Blood pressure response to acute pressure on spinal cord, 578.
 — volume of normal subjects, effect of bed rest on, 227.
- BOLLMAN, J. L. and E. V. FLOCK. Phosphate turnover in muscle during shock, 437.
